

Statement by Official Spokesperson on developments in Thailand

12/04/2010

We are following developments taking place in Thailand and are in constant contact with our Mission in Bangkok. While these developments are related to internal political issues, we regret the loss of lives and convey our sympathies to the families of the deceased. We hope that all will exercise restraint to prevent any further loss of lives and political differences will be tackled peacefully through negotiations. We express our solidarity with people of Thailand during this difficult phase.
